

# WHY IT PAYS TO BUY FROM AN ADVANCE DISTRIBUTOR

**SALES** - Advance distributor sales engineers are trained to help you apply the correct equipment to your specific application, thereby saving you time and money and precluding costly misapplications. Because they visit hundreds of facilities each year, they are aware of the latest equipment and techniques to solve your problems.

**INSTALLATION** - Advance distributors can install what they sell, which makes your job easier and assures you the job will be done right and the equipment will function to your satisfaction. Their trained technicians have the experience required to meet your installation requirements.

**SERVICE** - When your equipment needs service, your Advance distributor is right there to help. They have trained service personnel to get you up and running as fast as possible, thereby saving on downtime costs.

**VALUE** - It's very simple. Advance distributors save you money by applying the right equipment to the job, making sure it's installed correctly, and making sure you get service when you need it. Call your Advance distributor to insure your project's success.

*Advance's state-of-the-art, 120,000 square foot building houses all operations including sales, design, manufacturing and shipping.*

**A**dvance offers the best customer service to our distributors, and they in turn pass them along to you. Here are just a few services and programs that Advance provides to our distributors and ultimately you the customer.

# ADVANCE ADVANTAGES

◆ **Mechanical** Advance's scissor legs are milled and drilled in one operation to ensure exacting tolerances. They have lifetime lubricated bearings and 100,000 psi chrome plated axles and pins for longer life.

◆ **Electrical** UL approved electrical assembly and components. All of Advance Lifts' power units and electric assemblies are manufactured and tested on site.

◆ **Hydraulic** Advance manufactures its own industrial grade cylinders with steel front bearing blocks equipped with Teflon coated, sintered bronze, steel backed, lifetime lubricated bearings. For safety, cylinders have internal mechanical stops.

◆ **Paint Finish** All Advance products go through a four step paint process ending with an oven baked-on primer and an oven baked-on hard enamel paint finish to ensure long equipment life. There is the choice of 8 standard colors

### Benefits
