

DOCK EQUIPMENT PRICE LIST

EFFECTIVE AUGUST 8, 2008

EFFECTIVE 8/08/2008 (SUPERCEDES THE APRIL 15, 2008 PRICE LIST)

THIS PRICE LIST COVERS EQUIPMENT SHOWN IN THE DTR/15/0307 CATALOG:

► DOCK LIFTS, TRUCK LEVELERS, & RAIL TRANSFER BRIDGES

NOTE:

1. These prices are for base equipment only. When budgeting, you should add for options, freight, taxes, pit or slab work, and installation. As a rule of thumb, turn key budgets are usually 150% to 200% of base equipment cost.
2. These are budgetary prices. Due to volatile material costs, all distributors should secure timely quotations from the factory for specific shipping months. Quotations are good for 30 days and units on order are price protected for 60 days.
3. For contractors with long budget horizons, these prices are reasonable estimates for up to 3 months. If your horizon is longer, we suggest you add 2% per month beyond the 3 month date for a "not to exceed" budget number. When you are 90 days from the desired delivery date, get an up to date quote which will likely be below your budget number and place the order.

HOW TO USE THE PRICE LIST.

The prices and model numbers are laid out in the same order in which they are found in the respective catalogs. There is a page number column, which shows the page on which the model is shown. The *** symbol in the page number column denotes the end of a table whether it is at the end of the page or not.

If you need help CALL 1-800-843-3625.

ADVANCE LIFTS WARRANTY

For a period of one year from date of shipment from the Company's plant, the Company agrees to replace or repair, free of charge, any defective parts, material or workmanship on new equipment. This shall include electrical and hydraulic components.

For a period of ten years or 125,000 cycles (whichever occurs first) from date of shipment from Company's plant, the Company agrees to replace or repair any defective structure.

Company authorization must be obtained prior to the commencement of any work. The Company reserves the right of choice between effecting repairs in the field or paying all freight charges and effecting the repairs at the Company's plant. The Company further reserves the right of final determination in all warranty considerations. Evidence of overloading, abuse or field modification of units without Company approval shall void this warranty. No contingent liabilities will be accepted.
