

NEW PRODUCT NOTICE

Model SL-P Series Pneumatic Self Leveling Palletizer

This is a free-standing clutter free palletizer that needs no electrical lines or control lines to operate. The operator simply sets the air pressure gauge to the desired pressure and begins palletizing or depalletizing.

Model SL-S Series Mechanical Self Leveling Palletizer

This is a free-standing clutter free palletizer that needs no electrical lines or control lines to operate. The operator simply selects the appropriate spring set and then begins palletizing or depalletizing.

Model PL-2524 & PL-4024 Series Electric/Hydraulic Palletizer

This is the palletizer of choice when exact vertical positioning is required. Standard 110V can plug in anywhere.
