Model ATI-435 Air Operated Tilter

The air operated tilters offer the advantage of requiring no electrical connections. They operate on shop air with a minimum of 60 psi. The angle of tilt may increase as the load is decreased, which automatically rotates the bin toward the operator as it is unloaded.

**SPECIAL FEATURES & BENEFITS**

- All units are equipped with motion dampening shock absorbers.
- All air springs have lifetime warranties.
- These units are fully primed and then receive a baked enamel finish.
- These units comply with all applicable ANSI codes.
- All units are equipped with safety maintenance locks.
- Standard controls are hand valves mounted on pipe stanchions. (Foot operated controls are optional).
