ADVANCE LIFTS®

Electric Work Station Lifts

These lifts are designed to move personnel up to optimal ergonomic working heights. They are powered by an IP 65 electric actuator which is suitable for light wash down applications. Other sizes and travels are optional.

Electric Personnel Lift Series

Special Features

- No hydraulics
- Nema 1 controls (Nema 4 is available)
- IP 65 rated actuator with 10% duty cycle
- Baked enamel finish with smooth deck (safety tread, stainless steel/steel-it are optional)

Specification Table Electric Personnel Lift Series

Model	Capacity	Platform Size	Lowered Height	Travel	Raised Height	Speed (Sec)	Voltage	Ship Weight
EPL-300-12	300	2′ x 4′	4.25″	12″	16.25″	8	115/1	325
EPL-500-12	500	3′ x 6′	4.25″	12″	16.25″	14	115/1	525

These lifts are designed to move work objects to convenient working heights. Since there are no hydraulics, installation is simply lagging the lift in place and plugging it into an outlet.

Electric Box Lift Series

Special Features

- No hydraulics
- Nema 1 footswitch
- IP 65 rated actuator with 10% duty cycle
- Baked enamel finish with smooth deck

Specification Table Electric Box Lift Series

Model	Capacity	Platform Size	Lowered Height	Travel	Raised Height	Speed (Sec)	Voltage	Ship Weight
